## RECAP of 19 OCTOBER VIRTUAL MEETING

**PROGRAM:** Dave Markel brought us up to date on the status of the irrigation, education, and health project at the Malawi Children's Village which, in spite of the pandemic, continues to go well. The statement below sums it all up.....

*'On behalf of our farmers and the entire MCV community benefiting from the irrigation program, I would like to kindly thank you all for your unconditional and continuous support to the MCV irrigation program.*

*With your support I have eye witnessed how the program is changing the lives of many who are benefiting both directly and indirectly. Food is a basic need for everyone, however with poverty many are denied this right, but with your help the hope of the hopeless is being restored. Mostly I also wanted to thank everyone for the support during these challenging times of the pandemic. We will forever be grateful. '~*
