The Clifton Springs Hospital and Clinic Comprehensive Psychiatric Emergency Program (CPEP) serving our 5 county area.

Located within the Emergency Department, and newly designed to meet the growing need of patients seeking emergency psychiatric treatment, our CPEP unit includes safe, private and comfortable evaluation and consultation rooms, psychiatric patient rooms, and psychiatric extended observation rooms.

Patients will be asked to come in to the emergency department to be medically cleared for treatment, then will meet with a Clinical Evaluator for evaluation. After an assessment, the Clinical Evaluator will determine whether inpatient or outpatient treatment is needed. Referrals to follow-up services will be provided at the same time.

If you do not feel comfortable traveling to Clifton Springs Hospital & Clinic, our mobile crisis team can meet you within Ontario, Wayne, Seneca and Yates counties. Our confidential phone counseling is also on standby to do everything they can to help you.

Amanda touched upon a crisis in pediatric behavioral health in our region. The demand far exceeds services available. It is real and very concerning issue that various agencies are reckoning with.
